# An easy PATIENT EXPERIENCE

- Easy airport-style drop-off zones at all public entrances
- Colour-coded wayfinding signs
- Clear network of interior streets

# Carefully planned **AROUND THE PATIENT**

Child patient room

The first in Quebec to unite pediatric and adult specialties under one roof, offering continuous care throughout our patients' lives

# Carefully planned **AROUND THE PATIENT**

Adult patient room

500 individual patient rooms with private bathrooms, air conditioning and room for loved ones to stay the night

## At the forefront of **INNOVATION**

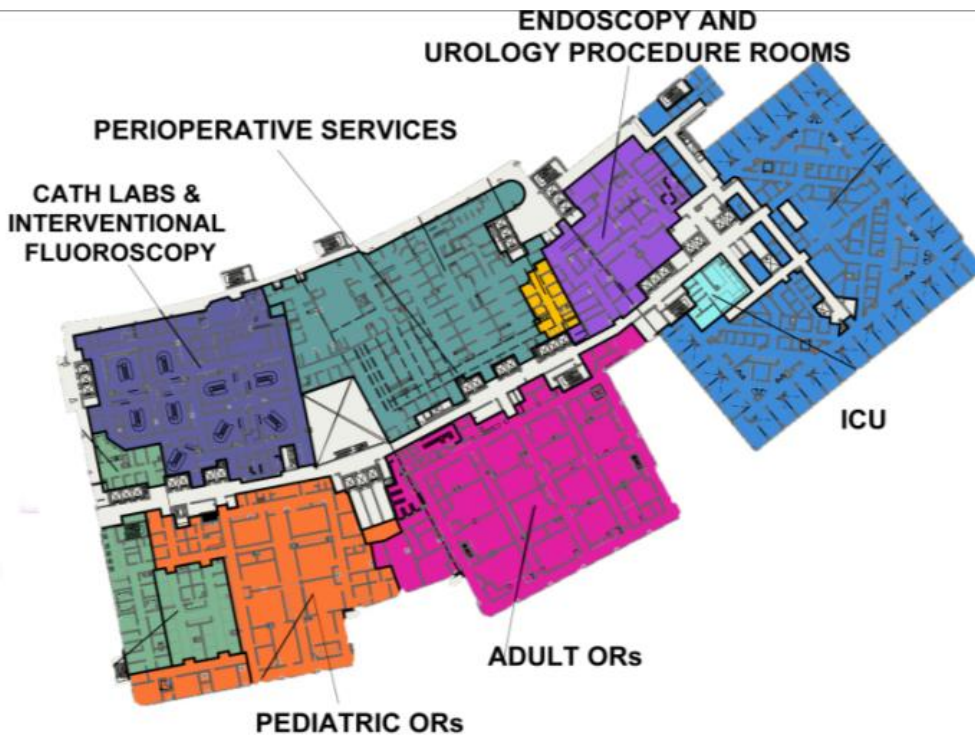

The latest state-of-the-art equipment, putting the Glen at the forefront of technology, thus helping reduce wait times for treatment

- 1 PET MRI (Magnetic resonance imaging) to better screen and diagnose cancer patients
- 7 MRIs, more than doubling the MUHC's imaging capacity
- 8 linear accelerators, including three specialty accelerators, allowing us to treat the most complex cancer cases

# At the forefront of INNOVATION

**Interventional platform**

- Some of the most modern operating rooms in North America
- All 20 operating rooms and 21 intervention rooms will be clustered
- Increased efficiency and optimization of resources meaning faster and more effective care for patients
- Adjacent to key departments

# At the forefront of INNOVATION

Urgence - Adulte - Bloc C Niveau S1

## Emergency Department Plan

- Two Emergency Departments: one adult, one pediatric
- Can be expanded or contracted, like an accordion, to allow flexibility
- Separate patients from staff, creating privacy for patients
- 100% single-patient rooms, even in the emergency departments

# Designed for **GROUND**BREAKING RESEARCH

- The Centre for Innovative Medicine and the Centre for Translational Biology will be unique in Canada, helping move discoveries from the lab bench to the bedside
- Researchers will have an edge over the competition with direct access to clinicians and patients

Research Institute at night

# Designed to be GREEN

Atrium at adult hospitals/cafeteria

- Four atria throughout the hospital complex
- Acres of green space, including a park, a children's playground, a zen garden and walking paths on site
- Will adhere to stringent environmental standards (LEED® Silver certification and BOMA BEST)
